

K-LOVE serves to bring encouraging, positive music and commentary to me personally and my local community. With crime, apathy and stress running rampant we desperately need this station to remain as is to give our youth and next generations hope for the future. If K-LOVE were to be displaced by an LPFM providing other programming I'm afraid it would not be as positive or necessarily set a better example than K-LOVE does now. I feel that it would be in the public's best interest to keep K-LOVE in place since this type of programming is so needed in today's world. As it is now we don't have enough of these type of radio stations available. We as a nation need this stability! Thank You for your consideration.
